## UNDER GUNWALE LOUDSPEAKER

Banshee Marine Audio's unique Under Gunwale Speaker system includes two under gunwale speaker arrays in perfectly tuned enclosures. Housing two 4" drivers and a horn loaded tweeter in each enclosure, the system is tuned to elevate higher frequencies to enhance the listening experience when the speakers are mounted under the gunwales facing downward. While the LSUG speakers are designed for under gunwale mounting to save owners from cutting holes in their vessels, the signature Banshee Marine Audio aesthetic can also look and sound amazing mounted on a wall or bulkhead.

## PRODUCT SPECIFICATIONS

Ingress Protection	IPx6 (Undergoing testing for IP67 at time of printing)
Peak Power Handling	140W
Continuous RMS Power Handling	70W
Impedance	4Ohm
Sensitivity (+/-3dB) 1W/1mtr on axis	94dB
Frequency Range	120Hz to 20kHz
Magnet Type	Neodymium
Cone Material	Polypropylene
Cone Diameter	4" x 2
Chassis Material	ABS Plastic
Warranty	2 Years

## PACKAGING DIMENSIONS

Gift Box Length	468mm (18.5")
Gift Box Width	304mm (12")
Gift Box Height	160mm (6.3")
Gift Box Weight	3kG (6.6lbs)
Quantity Per Carton	2 Pairs (4 speakers in total)
Carton Length	485mm(19.1")
Carton Width	320mm(12.6")
Carton Height	340mm(13.4")
Carton Weight	13KG (28.5lbs)
HTS Code	8518.22.00
